

## E<sup>3</sup>UDRES<sup>2</sup> Intensive I Living Labs @ St. Pölten UAS 2023

### Encouraging learning environments

Educational Entrepreneur: Marina Tomic-Hensel

<b>Title of the I Living Lab</b>	How might we create a <b>learning environment</b> that encourages students to develop and express their critical thinking abilities?
<b>Challenge</b>	The focus of this challenge will be about the competency of thinking critically. I would like to invite you to think about the skills we need in order to observe, analyze, interpret and reflect on a subject in an objective/critical manner.
<b>Goal</b>	You will learn what critical thinking means. You will explore ways to enable, teach and implement it.
